

JORGE GRULLON

NY, NY 10471 | (646) 662-8405 | jorgegrullon.org | github.com/jorgeg365

SKILLS & QUALIFICATIONS:

Operating Systems: Windows 10/11, Windows Server, Linux (Ubuntu, Red Hat), macOS

Systems & Infrastructure: Active Directory, Group Policy, DNS/DHCP, Docker, Proxmox, WSL, Virtualization

Networking: TCP/IP, VLANs, Routing & Switching, Cisco IOS, VPN (WireGuard), Network Troubleshooting

AI & Development: Ollama, OpenClaw, Local LLMs, ChatGPT, Claude Code, Codex, Git, GitHub

Programming: Python, Java, Bash, PowerShell

Cybersecurity: Access Control, Firewalls, IDS/IPS, Malware Analysis, Security Best Practices

IT Support: Hardware & Software Troubleshooting, Windows Deployment, Printer & POS Support, Help Desk

Professional Skills: Technical Documentation, Technical Training, Customer Service, Communication, Problem Solving

EDUCATION & CERTIFICATIONS:

<i>B.S. in Computer Information Systems</i>	Lehman College, Bronx, NY	1/2025 - Present
<i>A.A.S. in Cybersecurity & Networking</i>	CUNY Bronx Community College, Bronx, NY	1/2022 - 12/2024
<i>CompTIA A+</i>	CompTIA	8/01/2024
<i>CompTIA S+</i>	CompTIA	4/19/2025
<i>ISC2 CC (Certified in Cybersecurity)</i>	ISC2	10/1/2024
<i>LINUX & CompTIA A+ Practical Training</i>	CUNY Bronx Community College, Bronx, NY	3/2024 - 7/2024
<i>CRLA Tutor Training Program Certification</i>	CUNY Bronx Community College, Bronx, NY	3/7/2025
<i>Fiber U - Basic Fiber Optics</i>	CUNY Bronx Community College, Bronx, NY	3/13/2025

RELEVANT EXPERIENCE:

<i>IT Support Engineer</i>	LIWNET	7/2026 - Present
• Provided technical support for hotel staff, troubleshooting hardware, software, and network issues. • Installed and maintained computers, printers, POS systems, and other hotel technology. • Supported hotel management systems (PMS), reservation software, and front desk systems. • Managed user accounts, system updates, and basic network connectivity including guest Wi-Fi. • Responded to helpdesk requests and ensured minimal downtime for hotel operations.		
<i>Enrollment Coach</i>	CUNY Borough of Manhattan Community College	7/2025 – Present
• Guide students through admissions, enrollment, and registration processes. • Process applications, residency, and enrollment documents in CUNYfirst. • Evaluate transfer credits and apply articulation agreements to student records. • Audit and maintain accurate student records to ensure compliance with CUNY policies.		
<i>Game Development Instructor</i>	RFCUNY	7/2025 -Present
• Designed and taught a hands-on course introducing students to 2D fighting game development using the Ikemen GO engine. • Developed the course curriculum, lesson plans, and practical programming exercises. • Created and maintained an open-source GitHub repository containing course materials, documentation, and example projects. • Guided students through topics including character creation, animations, hitboxes, AI behavior, stages, and game mechanics.		
<i>Assistant Project Coordinator</i>	Youth Action Youth Build, NY, NY	3/2025 - Present
• Follow up with students to check on their progress and needs and provide updates on new opportunities.		

- Follow up with employment businesses to confirm job placements and openings and strengthen partnerships.
- Develop a contact rubric to set a schedule for how often to reach out to students and businesses and track follow-ups and outcomes.
- Compile final documentation by gathering all reports, proposals, and communication logs and preparing final files for submission or review.

Adjunct CLT

CUNY Bronx Community College, Bronx, NY

1/2025 - Present

- Set up and maintained the lab: Prepared the lab for students, including setting up equipment and materials
- Provided technical support: Helped students with hardware issues, software programs, and operating systems
- Ensured safety: Maintained safety and hygiene standards, and monitor for unsafe behavior
- Managed inventory: Kept track of equipment and materials, and ordered supplies when needed
- Provided instruction: Taught students how to use equipment properly
- Troubleshoot: Diagnosed and fixed hardware problems, or contact the appropriate engineer
- Maintained documentation: Kept records of maintenance and other laboratory activities

Tutor for Cybersecurity

CUNY Bronx Community College, Bronx, NY

1/2025 - Present

- Teach fundamental and advanced cybersecurity and networking concepts in a clear and structured manner.
- Guide students through hands-on labs, network simulations, and cybersecurity exercises.
- Help students understand firewalls, encryption, VPNs, IDS/IPS, and other security measures.
- Teach topics like TCP/IP, subnetting, routing, switching, VLANs, and network troubleshooting.
- Explain common cyber threats (malware, phishing, DDoS, etc.) and mitigation strategies.
- Teach cybersecurity best practices like strong password policies, patch management, and access control.

Artificial Intelligence Research Scholar

CUNY Bronx Community College, Bronx, NY

8/2024 - 1/2025

- Designed and deployed a wireless network throughout much of Black Rock Forest to enable data intake from various environmental sensors.
- Added network redundancy to ensure data reliability.
- Collaborated on an AI-powered camera prototype, using 3D printing to design the hardware that would offer better outdoor performance and higher accuracy for the AI model.
- Set up local infrastructure for processing AI that significantly speeds up data analysis.

IT support Workshop

CUNY Bronx Community College, Bronx, NY

8/2023 - 2/2024

- Installing, configuring, and troubleshooting printers and other peripherals.
- Understanding components, assembling computers, and installing necessary software.
- Installing, configuring, and troubleshooting Windows, macOS, and Linux.
- Configuring desktop and laptop workstations for optimal performance and security.
- Setting up and securing mobile devices (Android & iOS) for enterprise use.
- Setting up surveillance systems, configuring networks, and ensuring proper monitoring.
- Mounting network equipment, organizing cables, and maintaining server racks.

ADDITIONAL EXPERIENCE:

Concierge & IT Operations

Jefferson Tenants Co-op Building, New York, NY

6/2004 -12/2022

- Managed front desk operations, resident services, visitor access, and building security in a high-traffic residential cooperative.
